

The Mega Bite

On Sunday March 14th from 1-4pm the Community Center will host a Carnival where the "**Mega Bite**" will be "revealed" for the community and the cameras. The premise of the show is to partner with food scientists and engineers to create the "World's Biggest" edible item and to get the community's assistance in making the item in order to auction it off as part of a fundraiser. The Community Center of La Cañada Flintridge and our community is the subject of the pilot episode! We are proud that La Cañada has been selected, and are really excited about the filming and the opportunity to bring the community together. On March 11, 12, 13 the residents of La Cañada will be making the "**Mega Bite**" item out in our field. Cameras will be rolling as kids, teens, adults and seniors work together to create the "**Mega Bite.**" Are you wondering what the Mega Bite item for La Cañada is going to be? Chefs from our very own **DISH** restaurant will be working with the show's food scientists to create...**A GIANT KELLOGG'S RICE KRISPIE TREAT!** This is so exciting! We need "Cast Members" or Volunteers of all ages to participate in making the food item in 2 hours shifts on March 11, 12, and 13th. We also need volunteers ages 16 and up to work 2 hours shifts at the Carnival on Sunday March 14 from 12-5pm. Bring your friends, ask your social groups, employees, email your contact list...put the word out. We want 200+ people from all over the Community; Students, City Employees, PTA, Sports Teams, Girl and Boy Scouts. It's time for La Cañada to shine for the whole country! If you are interested in being "**Cast**" on the show please promptly email Megan Nordvedt at megan@cclcf.org.
